## Mission / Vision / Values

**Echeriri** has the mission to offer high and natural soap quality. In a natural way, we give the Earth's soul in a piece of soap. Also, our company wants our consumers to enjoy their personal care as an intimate experience with our planet.

We'll be whenever you are. There is no frontier for our product. All people who wish to try our soap, we'll make it possible. Echeriri is looking for pleasing personal care needs for you and your family. Please allow us to get to your home. Earth hold us when we were born and since then it's still taking care of all of us.

Echeriri is created with values and responsibilities towards society and environment. Each individual has needs that differ from each other. Therefore, we offer a wide variety of soap to fit your needs.

Every year we give back to our planet to thank it for their nature. As a result, our team work plants 80 trees and each employee dedicates 80 paid hours for the caring of the botanical local garden from cities in need.
